### AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and the listing of claims in the application.

#### Claims Listing:

1 – 28. (Cancelled)

29. (Currently Amended) A method comprising:

receiving signals from physical items in a vicinity around a changeable current location of a user, said signals containing information only about said physical items;

dynamically updating an index as the user changes location to contain said information only about the physical items only in a current vicinity around a said changeable current location of a user of said index; and

searching said index to answer natural language queries from a user about said physical items in said current vicinity of said user.

30. (Previously Amended) A method according to claim 29 and wherein said user is in a space, said vicinity is within said space and said space is one of the following: a store, a library, a shelf, an aisle, within a given radius, a street, a city, a campus, a building, an area and a park.

31. (Previously Amended) A method according to claim 29 and wherein said updating comprises listing information about said physical items, wherein said information comprises content found on tags associated with said physical items.

32. (Original) A method according to claim 31 and wherein said information comprises a description of said physical items and their locations.

33 – 56. (Cancelled)
